

Please,

Park Like Your Life Depends on It

These streets are narrow and twisting.

Neighbors are concerned that parked cars will block fire trucks and ambulances on their way to an emergency - maybe even at your house.

Please, be aware of how and where you park:

Don't impede emergency vehicle access - **a 20-foot minimum clearance** - is required by the City Fire Code.

Don't create danger for drivers approaching blind curves

On behalf of caring members in the community, we ask that vehicles be parked with this in mind.
